-----PRODUCT TEXT-----

The Graves Motorsports Cat Back Slip-On Exhaust System is handcrafted here at our headquarters in the USA. This exhaust system features our titanium canisters with tapered conical endcaps. The s-bends are made from mandrel bent stainless steel tubing and finished in a unique ball burnished finish. This combination of materials results in a lighter than stock exhaust system (1.6lbs less vs. stock) and more horsepower (7.05hp increase vs. stock). This slip-on exhaust system produces a deep and throaty exhaust note. Graves Motorsports recommends the use of the Dynojet Power Commander and Ignition Module.

-----ABOUT GRAVES MOTORSPORTS-----

Founded in 1990, Graves Motorsports is a manufacturer of high performance exhaust systems and accessories as well as a professional road racing and supermotard team. Our ceaseless mission is to offer factory-quality, race-proven performance exhaust systems and accessories to privateer racers, track day enthusiasts and street riders alike.
