## **PRODUCT PRESS RELEASE**

### **Adjustable Rearsets for Yamaha R6 (2006)**

Van Nuys, CA June 12, 2006 - Graves Motorsports announces the release of its adjustable rearsets for the Yamaha R6 (2006). This item is currently available with a MSRP of \$649.99. These are the rearsets used by Factory Yamaha on their AMA Supersport and Formula Xtreme Yamaha R6 racebikes.

#### ----- FEATURES -----

These rearsets feature billet aluminum construction, flat footpegs and double roller bearings in the brake and shifter pivots and carbon fiber heel guards. Includes 302mm shift rod (not shown).

Our unique adjustable flat footpegs offer superior grip via the large CNC'ed "teeth" and comfort due to its large contact patch and ability to be rotated to any desired angle.

The lever tips feature a high grip, rubber cover ensuring positive grip and feel when shifting and braking.

The carbon fiber heel guards are designed to be functional as well as look great. The sturdy, light weight construction ensure they will last when digging your heels into them.

Rider can select from either reverse or standard shift pattern by rotating the stock shift knuckle on the shift shaft.

This product comes complete with installation instructions and a spare parts diagram. These spare parts can be ordered by call us at (818) 902-1942 or via [www.gravesport.com](http://www.gravesport.com).

In order to use a Dynojet Speed Shifter you will need to use the Dynojet Ignition Module along with the Power Commander PC3USB and a shorter shift rod. Graves Motorsports offers an optional 246mm shift rod (part # SR246F, MSRP \$29.99) for use with the Dynojet Speed Shifter.

An optional Rear Brake Return Spring is offered as well (part # BK039, MSRP \$19.99). Simple solution to the problem of the rear brake dragging. This billet aluminum spring plate and spring

install easily onto the rear brake master cylinder rod and keeps the brake from dragging on the rear brake rotor.

-----

Founded in 1990 by Chuck Graves, Graves Motorsports is both a manufacturer of high performance exhaust systems and accessories as well as a professional road racing and supermoto racing team. Our racing expertise led us to win the AMA Superstock Championship in 2004 and the AMA Supermoto Lites Championship in 2005.

Our ceaseless mission is to offer factory-quality, professional race-proven performance exhaust systems and accessories to privateer racers, track day enthusiasts and street riders alike. We race what we sell!
