Fender Eliminator Kawasaki ZX-6R 2013-2014

PARTS LIST

- Fender Eliminator Bracket 1
- Lock Nuts 4

<<<<<< IT IS RECOMMENDED THAT THIS PRODUCT BE INSTALLED BY A QUALIFIED TECHNICIAN >>>>>>

- 1) Unplug the turn signals & license plate illuminator and remove the stock fender. Save the hardware to be used for the Graves Fender Eliminator installation.

NOTE: If using a tail light with integrated turn signals disregard the following procedure.

- 2) Install the turn signals making sure the left turn signal is on the left side and the right is on the right side.
- 3) Use the stock screws and the provided lock nuts to fasten the license plate holder to the under tail.
- 4) Run the turn signal wires through the center hole in the under tail bodywork and plug in the wiring.
- 5) Fasten the license plate with the stock fasteners.
- 6) Test the turn signals to ensure they're on the correct sides.
